

Eurobandas
The Granite Company

Eurobandas

European leader in the fabrication of granite slabs, granite half slabs and granite cut to size.

Eurobandas
The Granite Company

About us

Set up in 1991, Eurobandas has worked for more than **25 years** producing granite in all forms and varieties and supplying to customers around the world. A committed team and a permanent innovation in product and technology have proved the key to achieve its current position in the market. A total production capacity of **100.000 m² per month** allows Eurobandas to supply granite slabs, cut to size, cubes or kerbs to all type of projects.

Global presence

With a wide network of representatives, Eurobandas has a strong presence on all continents. The strategic location of our factory at the feet of the main granite quarries in Spain and the proximity of the port of Vigo allows Eurobandas to expedite the production and shipping processes. Over the last 25 years Eurobandas has carried out projects in more than 30 countries.

Manufacturing

Efficiency + Flexibility + Quality + Responsibility

The company's manufacturing policy is based on these four axes and they the reason why many prestigious importers and projects worldwide have relied on Eurobandas.

Efficiency

International markets demand a fast and reliable service, a right product and the best possible price; an outstanding technology for each product and a strong team commitment are the key points to achieve it all.

Flexibility

In a changing environment and full of unexpected situations, it is essential to work without rigidities. Knowing how to adapt to each Market, Client or Project is a safe value.

Quality

In a natural product such as granite, its control is as complex as it is important, and this effort must be permanent. All Eurobandas products comply strictly with the specifications required by standards UNE-EN 12058, UNE-EN 12057 and UNE-EN 1469.

Responsibility

Under the premises of reduce, reuse and recycle, our clear commitment is to minimize the environmental impact of the production process. Among other measures Eurobandas treat and reuse 100% of the water, ensure that the electricity consumed is equal to the energy produced and minimize the waste of raw material.

Products

Big slabs. Production capacity 40.000 m²/monthly. More than 50 granite types in stock.

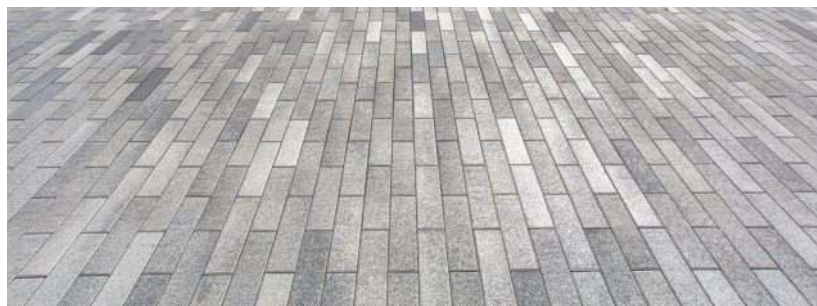

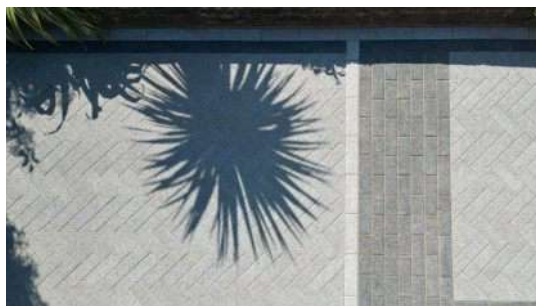

Half Slabs. Production capacity 20.000 m²/monthly. 60/85 cm high.

Indoor cut to size and 1 cm tiles with carton boxes. Production capacity 40.000 m²/monthly. Standard sizes & Cut-to-Size from 1cm above.

Outside big thickness pavers, cubes and kerbs.

Granite products for public projects. Different thicknesses and flamed / shotblasted finishes.
