

Kamen is a company that has been quarrying, processing and installing architectural-building stone since 1954.

Along with the company headquarters in Pazin, there is also a modern equipped factory for the processing of stone blocks into stone claddings, floor tiles, walls and other demanding products according to our customers' needs.

The mission of Kamen is to create a pleasant living environment for our customers. Our long-standing tradition and experience, creative employees, modern technology and cooperation with trusted partners around the globe guarantee that we are going to fulfill this mission.

Apart from being the leader in the domestic market, the company is also export oriented and is permanently present in leading global markets. Based on product quality, the manufacturing process and business operation system, the company was awarded the ISO 9001:2000 certificate in 2005.

In order to reduce greenhouse gas emissions during the manufacturing process, the company has introduced an energy efficiency management system in 2017 and was awarded the ISO 50001 certificate.

The best known material sourced and offered by Kamen from Istrian peninsula is the Istrian Yellow stone that is quarried in the Kanfanar, Selina and Korenići quarries, as well as in Kirmenjak and Valtura.

Kamen also has a presence in the Dalmatia region offering material from both Mironja and Plano quarries
