

## KWEZI S.R.L. COMPANY PROFILE

---

Micheletti by Kwezi s.r.l. is located in Carrara and is one of leading manufacturers of marble and granite working machines; we design and produce:

**Single-wire saws** for block squaring and production of thick slabs; these machines can be supplied in 3 versions: stationary, mobile on rails and double (stationary + mobile).

**Contouring single-wire saws** from 3 up to 8 interpolated axes to make any kind of linear, cylindrical and conical profiles (logos, tombstones, columns, twisted columns, ornamental pieces, etc.).

**80 & 100-blades gang-saws** to cut marble, travertine and similar stones blocks into big slabs.

Technical information, video and catalogues are available in our web site [www.micheletti-macchine.com](http://www.micheletti-macchine.com)

We sell our machines all over the world providing quick and efficient after-sale services by our skilled technicians.
