

Areniscas Sierra de la Demanda : Quarriers & manufacturers of **NATURAL STONE** products.

A family-owned & managed company with more than 34 years' experience in NATURAL STONE.

We source blocks from our own quarries, as close as 4 miles from the factory. Blocks are then carefully selected, enabling us to offer different tone sandstone to suit any project.

Our STONE is suitable for both internal & external use, for flooring or cladding, ashlar walling, masonry stone etc.

We produce all types of architectural masonry, columns, arches, quoins, balustrades, finials etc.

Long-term reserves & productive capacity both in quantity and grade are guaranteed.

Two new quarries will be operational in 2021.
