

PRECISION GRANITE AND MARBLE PRIVATE LIMITED

A renowned name in the Granite and Marble Industry worldwide, Precision Granite and Marble has been manufacturing and supplying stone and stone products for over 30 years.

Our state-of-the-art facility boasts a Gaspari Gangsaw, Pelligrini Multiwire, Breton Polishing Line, Epoxy Line by Intermek, Maema Flaming Machine and NOAT Edge Cutting CNC with a production capacity of 3,25,000 Sq. Ft. / 30200 Sq. Mt. per month.

We continuously strive to improve processes and efficiency to deliver high quality products and services, in turn helping customers become leaders in their respective markets.

We specialize in processing slabs in thicknesses 2cm and 3cm for use in construction as well as thicker slabs from 4cm to 25cm for use in monuments in various finishes like Polish, Honed, Leather, Lapatura, and Flamed & Brushed.

Today, Precision Granite and Marble is one of the leading exporters of Granite and Marble in India. We export worldwide to countries such as the USA, Canada, South America, Germany, Norway, Finland, Czech Republic, Hungary, Slovakia, Slovenia, Serbia, Spain, Estonia, Lithuania, Ireland, Holland, Poland, Vietnam, South Africa, Russia and many more.

We take utmost care in selecting/hiring skilled labor and provide training to meet best practice industry norms in quality standards and safety measures. We strictly prohibit child labor at our facility.

We are conveniently located in Bangalore City, INDIA.
